DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 25 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1 – 25 recite, inter alia, a method for making an anisotropic conductive film with conductive inserts, the method comprising the etching of at least one pattern in a single crystal substrate in order to form at least one cell with a bottom for drawing the contour of a first end of an insert, characterized in that the drawing of the pattern is intended for having at least one protruding tip and at least one recessed area appear in the bottom of the cell, during the etching of the pattern along at least one crystallographic plane of the substrate with limiting crystallographic planes. The inventive step is the etching of at least one pattern in a single crystal substrate to form at least one cell such that the pattern has at least one protruding tip and at least one recessed area appear in the bottom of the cell. Kondo, US 5,379,515; Kai, 5,679,493; Caillat, US 5,681,647; Caillat, US 5,879,530; Caillat, US 6,453,553 and Kimura, US 6,720,787 teach methods for making an anisotropic conductive film with conductive inserts, but they fail to teach the above limitations of the invention. Furthermore, the art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
